

2010 ORGANIZING COMMITTEE

DR. J. BARBERO	DR. J. MANIATE
DR. I. BOOKMAN	DR. V. MCCARTHY
DR. B. CHAPMAN	MS. E. MCLANEY
DR. N. CRISPINO	DR. A. MILLER
MS. P. DA PONTE-DIAS	DR. M. MOFFATT
DR. N. GHABBOUR	DR. P. NOVAKOVIC
MR. R. HARRIS	DR. M. SCHURTER
MS. B. IWASIUK	DR. Y. SHARGALL
DR. E. KRAFTCHECK	MS. M. TADIQUE
DR. E. LAU	DR. S. WONG
DR. K. LINK	MS. H. ZULYS

ACKNOWLEDGEMENTS

We are pleased to acknowledge the contributions and support we received from our sponsors:

Bristol-Myers Squibb Canada
Hoffman - LaRoche Limited
Novartis Pharmaceuticals Canada
Ortho Biotech
Servier Canada Inc.

REGISTRATION

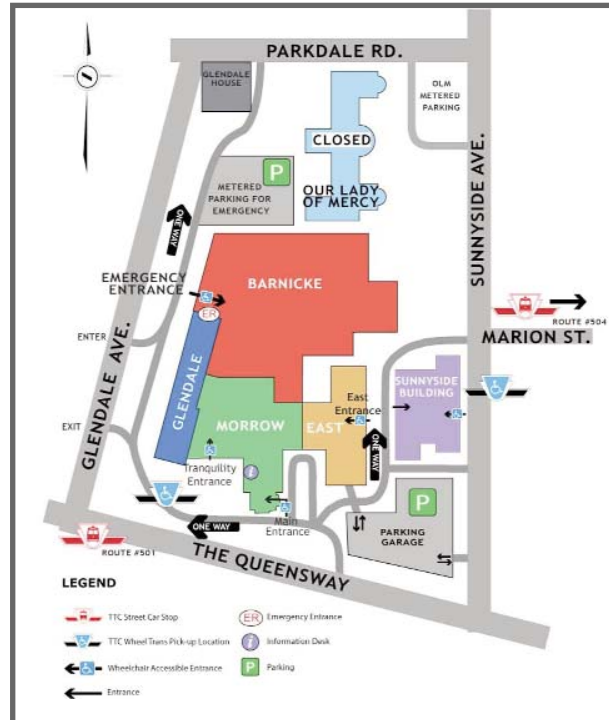

Although there is no cost to attend Clinical Day, we do ask individuals to register by either calling Paula Da Ponte-Dias at 416-530-6731 or emailing dapontp@stjoe.on.ca

**Call 416-530-6731 today
to reserve a spot!**

LOCATION

St. Joseph's Health Centre, Toronto
30 The Queensway
Education Centre A & B
1st Floor, Barnicke Wing

Please note: the SJHC parking lot may be busier than normal due to this event. You may wish to consider car-pooling, transit or a taxi.

55th Annual CLINICAL DAY

Friday, November 12, 2010
St. Joseph's Health Centre, Toronto

KEYNOTE SPEAKER

James Starr Simpson Memorial Lecture Series

**Major Dave McQueen, CD,
Deputy Commanding
Officer
Canadian Forces Joint
Headquarters**

ST. JOSEPH'S

ST. JOSEPH'S
HEALTH CENTRE TORONTO

ST. JOSEPH'S HEALTH CENTRE, TORONTO (SJHC) CLINICAL DAY 2010 PROGRAMME

7:15 a.m. Registration

8:00 a.m. Welcome: Carolyn Baker, President & CEO, SJHC

8:15 a.m. Scientific Presentations
 • Top Scientific Abstracts 2009/2010
 • Best Scientific Abstract Award Presentation

9:00 a.m. Richard Ahn, MD, MBA, FRCP(C) Anesthesiologist, SJHC

Jill Campbell, RN(EC), MN, NP-Adult, CCN(c), Acute Pain Service, SJHC

"Ultrasound-guided Nerve Blockade for Pain Control: Seeing is Believing"

Peripheral and central nerve blockade are effective methods to treat acute pain. These procedures have traditionally been accomplished through blind techniques, resulting in relatively modest success rates. Using ultrasound technology to help guide needle placement and confirm spread of local anesthetic solution can drastically increase the success of nerve blockade techniques, resulting in lower post-operative opioid requirements, faster rehabilitation and increased patient satisfaction.

9:20 a.m. Shiva Jayaraman, MD, MEd, FRCS(C) Hepatobiliary & Pancreatic Surgeon, SJHC, Assistant Professor of Surgery, University of Toronto
"Current Management of Pancreatic Cysts"

The objective of this session is to highlight the current management of cystic lesions of the

pancreas. Pancreatic cysts are often found incidentally on body imaging. This lecture will highlight the indications for surgical assessment and the general management of patients who are managed non-operatively.

9:40 a.m. Anjali Anselm, MD, FRCP, Cardiologist, SJHC

"An Update on Cardiac Diagnostics and Device Therapy"

In Cardiology, there has been a number of advances in noninvasive diagnostic technology over the last decade. There has also been a surge in device therapies, both for arrhythmia and heart failure management. This presentation will briefly review the growing field of device therapies and also provide an update on new diagnostic modalities offered by the Division of Cardiology at St. Joseph's Health Centre.

10:00 a.m. Refreshment Break/Visit Sponsor Booths

10:30 a.m. KEY NOTE SPEAKER - James Starr Simpson Memorial Lecture Series

Major Dave McQueen, CD, Deputy Commanding Officer, Canadian Forces Joint Headquarters

"Disaster Assistance Response Team (DART): Operation HESTIA"

Late in the afternoon of January 12, 2010, a devastating earthquake struck Haiti, with the epicentre located just outside the capital city of Port-au-Prince. The Canadian Government reacted quickly and orders were given for the Disaster Assistance Response Team (DART) to ready themselves for a probable deployment. Within 24 hours of the earthquake the reconnaissance party of the DART had arrived in Haiti and began to assess

the situation and provide assistance. This presentation will highlight the DART's capabilities and will show how they were used in Haiti, with a specific focus on the medical capabilities and response.

11:30 a.m. Presentation & Awards
 SJHC Medical Staff Teaching Awards

11:45 a.m. Clinical Pathology Conference (CPC) Rounds - SJHC Physicians

- Graham Berlyne, MB, ChB, FRCP, FRCP(C), Respiratory & Internal Medicine
- Asghar Naqvi, MD, FACP, Laboratory Medicine
- Mark Fruitman, MD, FRCP, Diagnostic Imaging
- Sigmund Kraiden, MD, FRCP(C), Microbiology and Infectious Diseases
- Maurice Blitz, MD, MSc, FRCS(C), Thoracic & Foregut Surgeon

"A Man with Diffuse Lung Disease, Progressive Respiratory Failure and No Diagnosis"

This session will discuss a complex clinical case which required consultation from many different disciplines at St. Joseph's, and look at events as they unfolded with this patient's illness. Staff from Respiratory, Thoracic Surgery, Infectious Disease, Diagnostic Imaging and Pathology will discuss differential diagnosis and treatment, explain their reasoning and answer questions from the panel and the audience.

12:30 p.m. Closing Remarks

12:45 p.m. Lunch Break

Please refer to back panel for registration information
