

# Redevelopment Update

## June 28th, 2007

Please note:

The construction labourers strike has been resolved and as a result the removal of materials from the demolition site has proceeded as business as usual.

The next phase of the work will include selective demolition of OLM where it is connected to the Health Centre. This work will be much more labourious and will take us into the summer.

### Ongoing Communication

St. Joseph's Health Centre is committed to providing the highest quality of patient care to residents living in Toronto's west end. We are also committed to being a good community partner. Our redevelopment project will ensure that we continue to meet the health care needs of the community.

Residents may contact our Public Affairs Department at 416-530-6387 or by e-mail at [pubaff@stjoe.on.ca](mailto:pubaff@stjoe.on.ca) with questions and/or concerns regarding the redevelopment project.

Redevelopment information is also provided on the Health Centre's website at [www.stjoe.on.ca](http://www.stjoe.on.ca). Click "Redevelopment News" on the homepage.
