

babytime

Babytime is a time for babies ages 4-12 months and their parent or caregiver to share fun learning experiences through songs, rhymes, finger plays and books.

It is a time to watch, play with, talk to, stimulate and enjoy your baby !

Music is one of the first ways you and baby can listen to and talk to each other. Songs and rhymes help baby learn to talk and think with words. Finger plays and action songs stimulate the use of the body and enhance body awareness. Babytime can help babies fall asleep or surprize them into laughter. From these simple beginnings, important aspects of baby's learning develop.

Fee: \$55 for six one-hour sessions
